HOW TO FIND US

PERFECTION IN REFLECTION

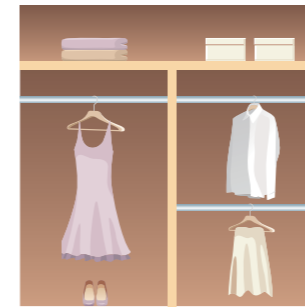

Profile Mirror Wardrobes is a small company with big attention to detail. We're not satisfied until our customers are, and we're happy to go that extra mile.

The company was established in 1988 by founding directors Nick Sandall and Robert Davies. We are a major supplier of bespoke sliding wardrobes to trade clients, bedroom furnishing companies and builders. We also supply and fit our wardrobes for retail customers across the Midlands.

Providing truly individual design and manufacture across our range of sliding doors, Profile can transform even the most complicated of spaces into a stylish and bespoke bedroom or office. Simply select your choices from our wide range of exciting painted and wood effect finishes.

Your wardrobe and interiors will be installed by professional fitters with vast experience so you can get the most from your available space. We can also customise to your exact specifications. Using the very latest sliding door technology means our doors glide effortlessly time after time, and quality manufacturing means they are unobtrusive and easy to use. Top tracks co-ordinate with a full range of finishes, complemented by five universal bottom tracks available in black, white, silver, champagne gold and chrome.

We create perfect storage solutions to reflect your taste, complement your décor and suit your lifestyle. Profile also provides a 10-year guarantee on all hardware and running gear backed by home d'ecor innovations.
